

WALL MOUNTED **AGENA COMPACT** SERIES

AGER Agena Compact series wall mounted cabinets; They are cabinets that meet medium-sized network installation needs. According to the equipment to be used, the mounting of the device can be adjusted in the depth of the cabinet. Thanks to its wall-mountable apparatus and panel structure, its functionality increases and it creates great solutions in small spaces. In addition to its technical and robust structure, it has an aesthetic appearance with its decorative metal frame.

Color Options

RAL9005 Black

AGER

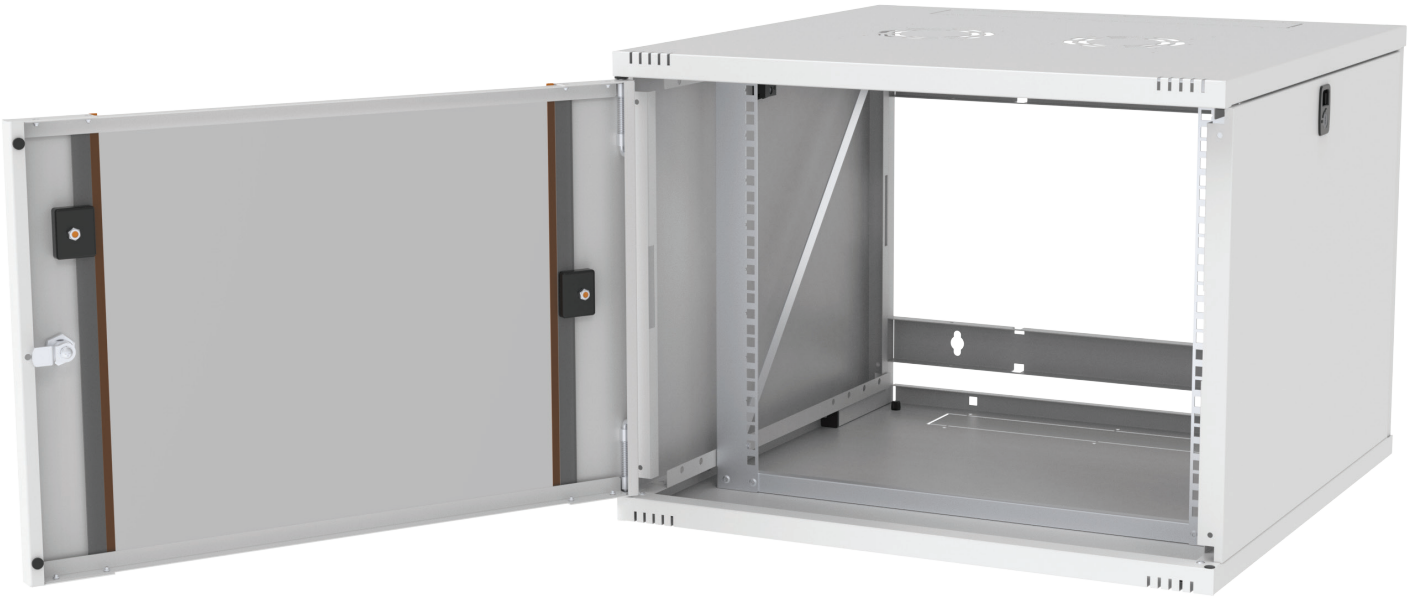

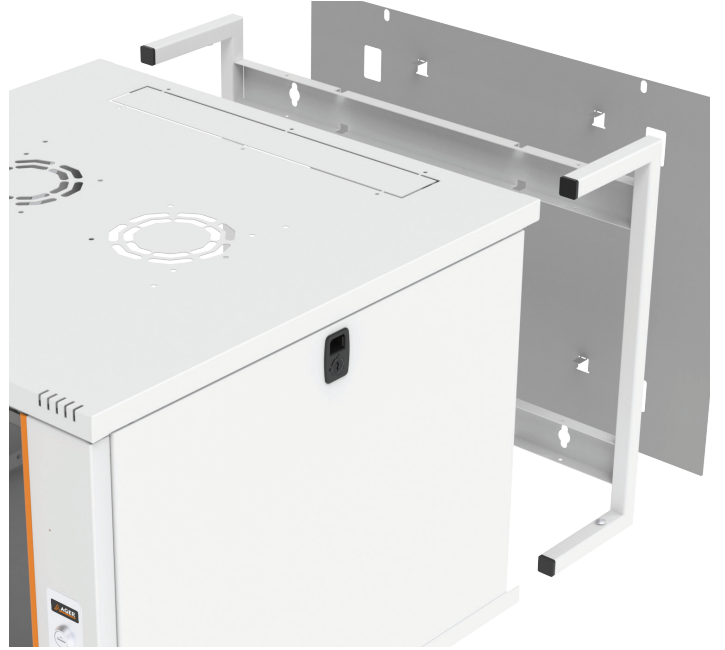

WALL MOUNTED **AGENA COMPACT** SERIES

Easy Assemble

With its easy-to-assemble design, the cabinet's interior assembly and installation can be done easily on the ground or in assembly areas. After the rear monoblock welded profile is installed on the wall, it can be easily assembled to the cabinet's top and bottom covers.

**AGER****WALL MOUNTED AGENA COMPACT SERIES**

Different Size Options

With two different depth dimensions (450mm – 600mm) and 6 different U height options (6U – 9U – 12U – 15U - 18U – 21U), in total with 12 different size options, Agena Compact series provides solutions for all kinds of needs about optimum volume

Front Door

Front door model is full-length glass door. It is 4mm, smoked and high fracture resistance and tempered and It has single point lock.

Front glass door with spring-loaded hinge system allows changing opening direction when required without any use of tools.

**Ventilation**

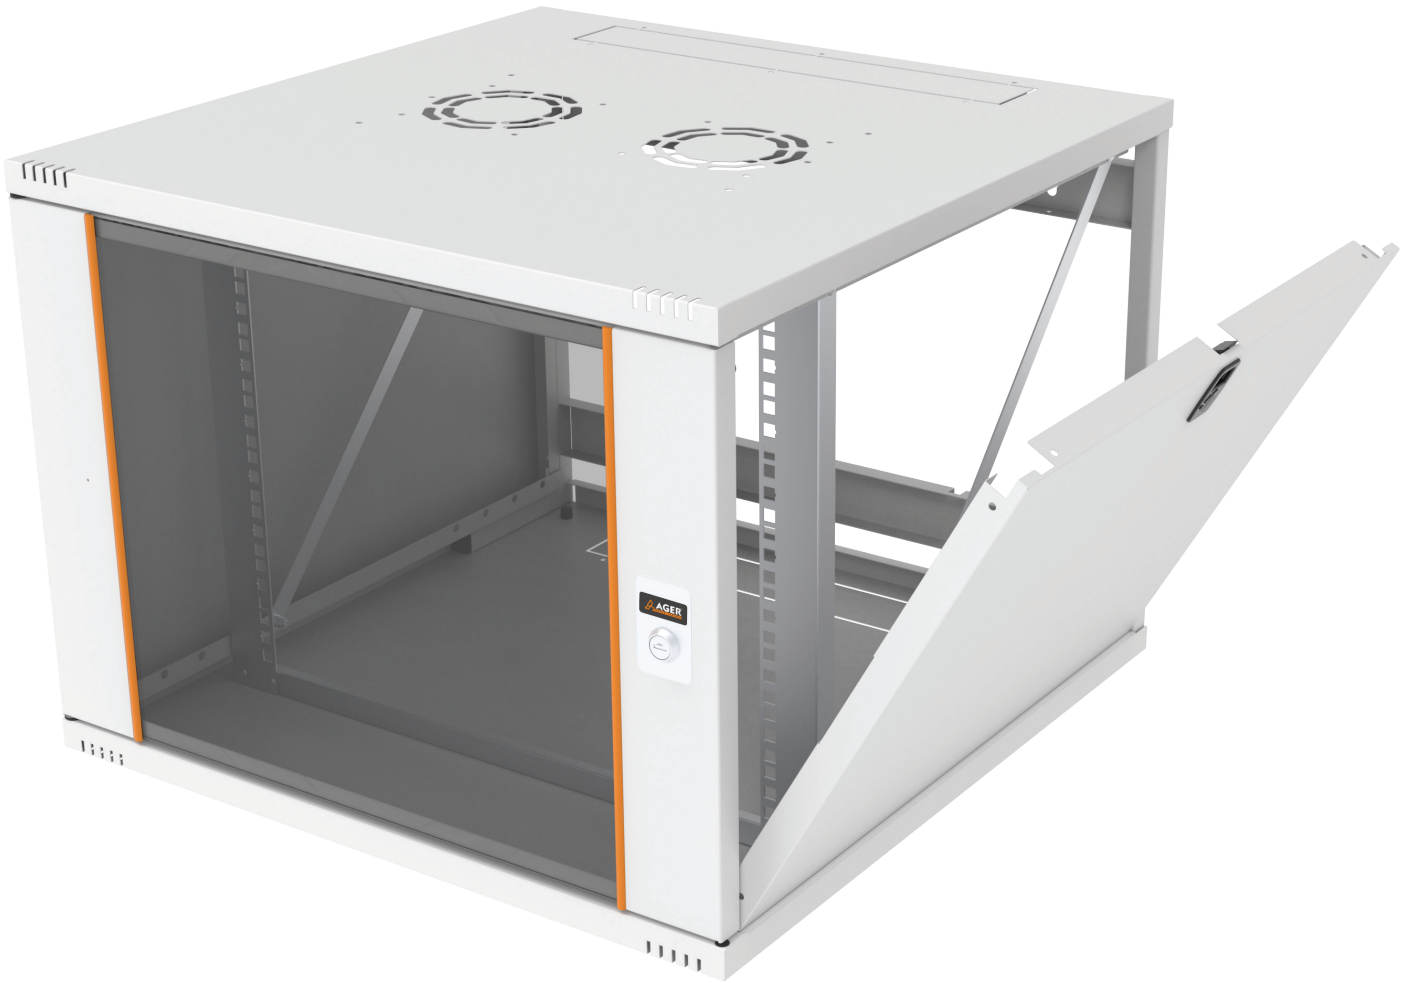

Two ventilation holes on the top cover , acting as passive ventilation, allow air circulation inside the cabinet and discharge of hot air. Active ventilation can be provided by connecting a ventilation module with two fans.

Cable Entries

Two-way cable Access provided by the cable entry holes on the rear panel, top and bottom sheet

Side Panels

Thanks to easily removable side panels, quick access to the indoor unit is provided.

New Generation Cabinet Structure

Thanks to the Monoblock Welded profile that can be easily mounted on the wall on the back of the cabinets, a new mounting concept is aimed with on-site installation support in wall-mounted cabinets.

After fixing the rear panel to the wall, the cabinet's assembly can be completed over the rear panel by hanged on the profiles.

The four mounting holes are screwed to the cabinets and fixed to top and bottom from inside the cabinet with the help of the screws for each.

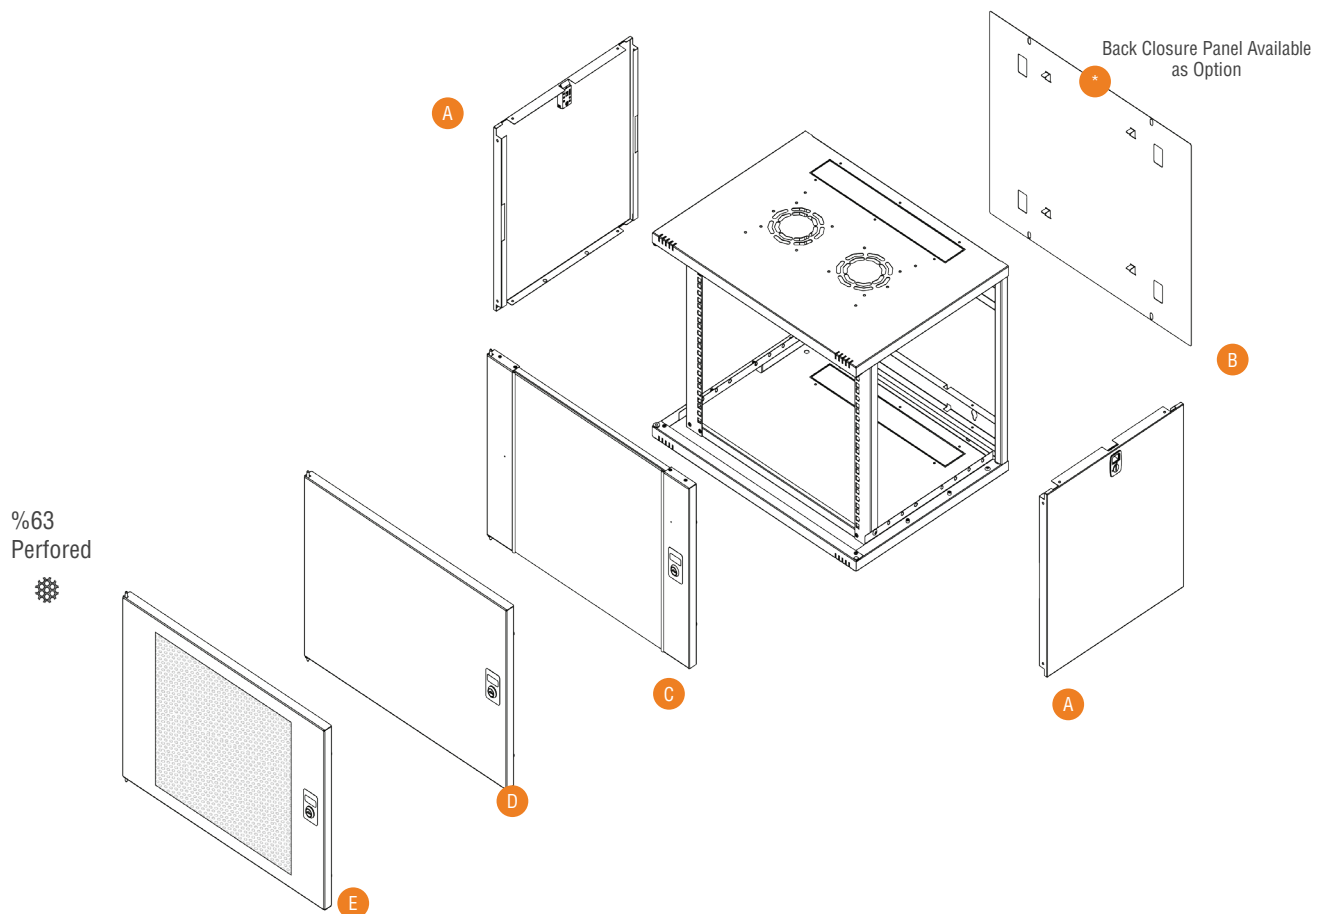

** The rear panel is available as an option..

Multiple Access

By the ability of 3 ways access, assembly, maintenance and repair can be done easily.
